## TRON Symposium Outline

---

### Greeting from the Chair of Technical Program Committee

---

### Papers

---

- **Bridgeless Quadratic Buck Converter With High Step-down Capability for Energy Harvesting Applications**  
Zhengge Chen (Southwest Jaotong University, China & City University of Hong Kong, Hong Kong); Jianping Xu (Southwest Jaotong University, China); Jiheng Cai (Southwest Jaotong University, China); Yuxin Liu (City University of Hong Kong, Hong Kong); Tianci Wang (City University of Hong Kong, Hong Kong)
  - **Remote Assessment and Proctoring using Intelligent Devices - SENSE (RAPID-SENSE)**  
Wyvern Kiang Teng Wei (Singapore Institute of Technology, Singapore); Muhamed Fauzi Bin Abbas (Singapore Institute of Technology, Singapore); Weihan Goh (Singapore Institute of Technology, Singapore)
  - **Optimized memcpy for 32-bit ARM Automotive Embedded Systems**  
Yucan Yu (Singapore Institute of Technology, Singapore); Yongsheng Daniel Zhou (Continental Automotive, Singapore); Ying Taat Soh (Continental Automotive, Singapore); Muhamed Fauzi Bin Abbas (Singapore Institute of Technology, Singapore)
  - **Systematic Analysis of Factors Influencing Modulith Architecture Adoption over Microservices**  
Chandra Prakash (University of the Cumberlands, USA); Sunil Arora (Dakota State University, USA)
- 

### Appendix

Technical Program Committee, and other staff members  
The total program of 2024 TRON Symposium -TRONSHOW-
